

NJI KIMBI DARLINGTON

Computer Engineering Student

Date of birth: 11th NOVEMBER 2001

Location Bamenda, Cameroon

Tel: +237697760384 / +237676638050

Twitter: <https://mobile.twitter.com/darlingtonkimbi>

Email: kimbidar@gmail.com

Linkedin: <https://www.linkedin.com/in/kimbi-darlington-a867691b1/>

EDUCATION

University of Bamenda / Bachelor's in Engineering

September 2019 - Present

- **Cumulative gpa:** 3.6/4.0

GBHS Cameroon / Advanced Level Certificate

September 2017 - August 2019

- **Number of papers:** 4/5

SKILLS

- **Technologies**

Web (frontend and backend) and mobile

Frontend: React
Backend: Django and Node, Spring, FastAPI
Mobile: ReactNative

- **Interested Languages**

Javascript, C, Python, Java

C: *Intermediate*
Javascript: *Expert*
Python: *Intermediate*
Java: *Expert*

- **Virtues** Attention to detail, analytical and problem solving
 - **Communication** Written and verbal communication **English**
- English Proficiency: **Strong**
French: **Intermediate**

EXPERIENCE

Web development

- **Design of apps:** Over four years experience in design of applications and websites
- **Web development:** Developed front end applications with vanilla JS and REACT (using MERN stack).

Risk/ Solana Blockchain

- **Frontend development:** Worked for a short period with the risk team as a frontend developer

Learning / Courses and internships

- **Udemy:** Udemy Course on advanced programing in C by Tim Buchalka (learn programing community)
- **Coursera:** python
- **Edx:** Compiler theory

Python

- **Package Development/Pip/pypi:** Done some work on developing python packages and in other fields of python

Devops

- **CI/CD:** Good understanding and practice on controlling operation and production of software applications using the ci/cd pipeline
- **Docker:** Containerizing applications

Odoo

- **Development:** Development of odoo application and modules including complex features such as POS and odoo chat

- **Deployment:** Configuration and management of servers with nginx and linux server to manage operations

INTEREST

Reading: Programming Concepts

Football: Liverpool FC, Mohamed Salah

Gaming: FIFA, Call of Duty

Technology: Latest software and devices, MKBHD

Watching Movies: Game of thrones, ANIME, MARVEL(Avengers)

REFERENCES

PS: With my knowledge in software engineering paradigms and problem solving skills, I believe I will be an asset to the community.
